Premium vine på glas

Ønsker du ikke at købe halve eller hele flasker, kan vi udover glasvinene i vinkortet tilbyde et udvalg af Premium vine på glas.

CORAVIN gør det muligt at servere et udsøgt glas vin. Flasken fyldes med Argon-gas samtidig med, at vinen skænkes på glas. Dette sker via en nål der føres gennem proppen, og dermed sikrer vinens fortsatte holdbarhed.

Dermed er det muligt at få serveret et glas af en udsøgt høj kvalitet, som man normalt skulle købe en hel flaske for at få mulighed for.

Premium wines by the glass

If you don't want to buy half or whole bottles, we can in addition to the glass wines in the wine list offer a selection of Premium wines by the glass. CORAVIN makes it possible to serve an exquisite glass of wine.

The bottle is filled with Argon gas at the same time as the wine is poured into glasses. This is done via a needle that is passed through the stopper, and ensuring the wine's continued shelf life.

Thus, it's possible to be served a glass of an exquisitely high quality wine, which normally would require to buy the whole bottle

*There's always
time for a
beautiful glass
of wine*
